AMENDMENT

Honorable Commissioner
of Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

Responsive to the Office Action mailed May 16, 1994, please make the following
amendments in the Claims:

1/16: (Amended) A plug-dropping apparatus for displacement of a material downhole
during the well drilling and completion operations by personnel working on a rig [use],
comprising:

at least one housing;

at least one plug selectively supportable within said housing;

at least one plug stop assembly on said housing selectively operable to hold
and release said plug; -

at least one signal transmitter operable adjacent the rig and remotely from
said housing;

at least one signal receiver on said housing for receiving over the air at least
one signal from said transmitter;
